This is not the policy of the Little Tokyo BID! All workers, residents, and visitors may request and receive assistance. They respond to residences all the time. It's possible that someone was on duty who did not convey the correct information. I will make sure that this is cleared up with our officers. Thank you for letting me know.

Subject: Bid question

Hi Ellen and Joanne!
Good morning!

I had an interesting conversation last night with HCNC board member Vivian Um. She lives in one of the 3 condos (Mura, Artisan & Savoy) by St Francis Xavier. She was saying that the Little Tokyo Bid will not respond to them when they call, because they are not business based.

The mother are scared to walk their children because of the homeless and have called for an escort or even that there is a homeless person sleeping or making a nuisance, but the Little Tokyo BID response is that they will not respond due to the fact that they are calling from a residence and that they only respond to business, because they are business based bid.

Can you please verify that this is the policy of the BID?
